Event Management

# INTRODUCTION

## Creativity by Default

No matter the event type or size, whether you have a vision, or need help creating a concept, our passionate and experienced team will guide you through your event from start to finish. We care about providing professional services and maintaining quality standards, making Titan Events & Entertainment your 'go-to' choice for events.

The success of your event is important to us and we will support you beyond the operations and logistics to bring your vision to life. Long-standing relationships with local and international suppliers mean we can source all of your event requirements, large and small. We are proud of our extensive client list across Oman, the GCC region and Europe.

Renowned locally as a 360 solutions company with a creative mindset, we can bring a fresh look to any conference or gala dinner to impress your guests.

Conferences, gala dinners, team building, family days, networking events, product and brand launches, exhibitions and private parties are just a few of event types within our scope of capabilities.

Visit our website <https://www.titan-events.com> for more information on services and previous events.

# MICE CONFERENCES & DINNERS

Only Limited by Your Imagination

MICE events are unique for each client and with that in mind, we design each event based on our clients' requirements and objectives. This may mean bringing in special entertainment, supplies or items in from abroad. Sometimes, it might require that we custom fabricate to fit event-specific requirements. As a well established event intergrator, we can welcome your guests and guide them through each element of the event agenda from the moment they arrive until they depart.

# ENTERTAINMENT SERVICES

## Creating the Right Atmosphere

Entertainment is one of the most memorable aspects of an event. Visitors to Oman often enjoy experiencing the local culture and traditions. Local entertainment combined with Arabic style venue setups create a truly immersive experience into the rich cultural traditions of Oman.

For that 'WOW' factor or something a little different, we can provide a wide variety of international entertainment choices to suit your event theme. All entertainment services are conducted by highly professional performers.

# CORPORATE TEAM BUILDING

## Building a Successful Team

Team building activities are an increasingly popular addition to conference agendas and MICE events. Team building encourages networking and increased productivity by engaging participants in activities that are purposefully designed for this result.

Creative and unique program offerings mean that your guests may try something new and achieve goals they didn't think were possible. Sharing these accomplishments with their teammates creates bonds that last beyond the end of the trip.

Activities include CSR programs, art programs, local cultural experiences, problem-solving challenges and fun treasure hunts with on and off-site location options.

# Video Mapping

## Next Level Presentations

Video projection mapping brings your brand message to life in front of your guests' eyes. This technology is relatively new to Oman, but an established medium around the world and Titan Events is the industry leader in video mapping in the country. Using HD projectors and custom video animation, we can create stunningly realistic scenes on nearly any surface.

Imagine an internal view of your building that then turns to cutaway images of the rooms. Then brick by the brick building of the outer walls followed by 3D effects that make the building seem to sink in, then expand out. Create a memorable experience that will have the whole town talking.

The software can interact with a projector to fit any desired image onto the surface of that object. This technique is used by artists and advertisers alike to add extra dimensions, optical illusions, and notions of movement onto previously static objects. The video is commonly combined with audio to create an audio-visual narrative that the entire crowd will remember.

We have an exclusive partnership with FREELUSION, World Champion video mapping design house. We are sure that we will deliver the best of the best.

# AUDIO SYSTEMS

## Crystal Clear Sounds

Whether the desired effect is calm with background music for networking or dramatic and lively for dancing, the right tone can greatly influence how guests remember your event. Special effects with lighting and sound can provide the extra 'WOW' factor to important events.

Our expertise lies in the technical production of events that varies from lighting, sound, audio-visual, staging, rigging, and backline gear. With a professional technical crew and decades of industry experience, we boast state of the art equipment and consistent high performance.

# LIGHTING SERVICES

## Light up Your Event

Lighting and effects can be all that may be needed to focus all attention to your project or product or create an elegant atmosphere luxury for your event.

Our lighting design team takes all of this into account when designing your event lighting plan. We are ready to take your presentation to another level.

# PHOTO & VIDEO SERVICES

## Lights, Camera, ACTION!

Documenting your event with photography and video is important from a marketing and promotional standpoint. Titan Events provides professional event photographers to capture your event from all the right angles, giving you excellent shots that can be used for social media, company websites and promotional material.

Want to present your content larger than life?

We offer the latest high-resolution LED video wall solutions. With over 80 sqm of LED video panels, we can literally make your presentation more than life sized.
